

CAMEROON

AFRICA IN MINIATURE

Cameroon is a country found in the Central Western part of Africa, flanked to the North by a narrow strip of Lake Tchad, to the West by Nigeria, to the East by Central African Republic and to the South by Congo, Gabon and Equatorial Guinea.

We could say that Cameroon is **Africa in miniature** and so the country has all what other countries of Africa have.

This is one of the peaceful countries of Africa blessed with so many **touristic potentials**.

One of them is **HOSPITALITY**: Cameroonians in general and Kom in particular where **FEPCIG HEADQUARTER** is, hold in mine that a foreigner is king.

They therefore seek to help the foreigners who are in need. Tourists that come particularly to **Belo-kom** leave with no regret at all.

Kom is a tribe in the North West Region of the Republic of Cameroon. It's surrounded by five Divisions namely: Ngohketungia to the South, Bui and Dunga Mantung Divisions to the East, Menchum Division to the North and Mezam Division to the West.
